

EASTON AREA SCHOOL DISTRICT

SECTION: OPERATIONS

TITLE: COPYRIGHT MATERIAL

ADOPTED: December 21, 2006

REVISED:

<p>1. Authority 17 U.S.C. Sec. 101 et seq</p> <p>2. Definition</p> <p>3. Delegation of Responsibility</p>	<p style="text-align: center;">814. COPYRIGHT MATERIAL</p> <p>The Board emphasizes that the United States Code makes it illegal for anyone to duplicate copyrighted materials without permission. The Board attests that severe penalties are provided for unauthorized copying of audio, visual, software or printed materials unless the copying falls within the bounds of the fair use doctrine.</p> <p>Under the fair use doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or changing a product falls within the bounds of fair use, four (4) standards must be met:</p> <ol style="list-style-type: none"> 1. THE PURPOSE AND CHARACTER OF THE USE. The use must be for such purposes as teaching or scholarship and must be nonprofit. 2. THE NATURE OF THE COPYRIGHTED WORK. Staff may make single copies of: book chapters for use in research, instruction or preparation for teaching; articles from periodicals or newspapers; short stories, essays or poems; and charts, graphs, diagrams, drawings, cartoons or pictures from books, periodicals or newspapers. 3. THE AMOUNT AND SUBSTANTIALITY OF THE PORTION USED. Copying the whole of a work cannot be considered fair use; copying a small portion may be if stated guidelines are followed. 4. THE EFFECT OF THE USE UPON THE POTENTIAL MARKET FOR OR VALUE OF THE COPYRIGHTED WORK. If resulting economic loss to the copyright holder can be shown, making even a single copy of certain materials may be an infringement; and making multiple copies presents the danger of greater penalties. <p>Staff may make copies of copyrighted school district materials that fall within stated guidelines. Where there is reason to believe the material to be copied does not fall within guidelines, prior permission shall be obtained from the principal.</p>

<p>4. Guidelines</p>	<p><u>Permitted Copies</u></p> <p>Multiple copies, not exceeding more than one per student, may be made for classroom use or discussion if the copying meets the tests of brevity, spontaneity and cumulative effect. Each copy must include a notice of copyright.</p> <p>A library or archive may reproduce one copy or recording of a copyrighted work and distribute it if:</p> <ol style="list-style-type: none">1. Reproduction or distribution is made without any purpose of direct or indirect commercial advantage.2. Collection of the library or archives is open to the public or is available not only to researchers affiliated with the library or archives or with the institution of which it is a part, but also to other persons doing research in a specialized field.3. Reproduction or distribution of a work includes a notice of copyright. <p>Copies of materials for face-to-face teaching activities involving performances or displays made by students or instructors, religious services, live performances without commercial advantage, and the use of instructional broadcasts are permitted.</p> <p><u>Prohibited Copies</u></p> <p>The law prohibits using copies to replace or substitute for anthologies, consumable works or compilations or collective works. Consumable works include: workbooks, exercises, standardized tests, test booklets and answer sheets. Teachers cannot substitute copies for the purchase of books, publishers' reprints or periodicals; nor can they repeatedly copy the same item from term to term. Copying cannot be directed by a "higher authority"; and students cannot be charged more than actual cost of photocopying.</p> <p>Schools must be licensed to play copyrighted music where the performer is paid or admission is charged, even if the admission is used to cover refreshment costs.</p> <p><u>Copyright Infringement</u></p> <p>It is the intent of the district to adhere to the provisions of the copyright law in all areas of written, audio and visual materials and software.</p>
----------------------	--

In an effort to discourage violations of the copyright law and to prevent such illegal activities, the following will be observed:

1. All employees of the district must face the legal and ethical issues involved in copyright law and publisher agreements. All staff must take responsibility for adhering to these laws and agreements. Neither previous practice nor budget constraints can excuse willful interference of these laws.
2. District employees shall be personally liable for willful infringement of such laws.
3. Questions concerning the interpretation of the copyright law should follow the normal chain of command to the appropriate administrator. In cases of interpretation of the law, the district solicitor shall serve as the copyright officer.
4. The district will post appropriate notices on or near all equipment capable of making copies. Copies of this policy will be distributed to all employees.
5. A file shall be maintained in each building main office regarding the permission requests to reproduce copyrighted materials. Also included will be the responses to permission requests. In addition, a separate file shall be established and maintained for building/site license agreements.
6. Guidelines detailing copying practices and fair use shall be disseminated to staff and students.

Off-air Recordings

Broadcast programs may be recorded off-air simultaneously with broadcast transmission and retained by the district for a period not to exceed forty-five (45) consecutive calendar days after the date of recording. After this period of time, all recordings must be erased or destroyed immediately.

Program recordings may be used once by individual teachers in the course of relevant teaching activities, and repeated once only when instructional reinforcement is necessary, during the first ten (10) consecutive school days in the forty-five (45) day calendar day retention period.

After the first ten (10) consecutive school days, off-air recordings may be used up to the end of the forty-five (45) calendar day retention period only for evaluation purposes by the teacher.

Off-air recordings may be made only at the request of and use by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

Off-air recordings need not be used in their entirety; but they may not be altered from their original content and may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. Such recording must include the copyright notice on the broadcast program as recorded.

Videotapes/Optical Discs/Distance Learning/Audio-Visual Delivery Devices

A library, archive, or media center may reproduce one copy of a recording of a copyrighted work and distribute it in accordance with provisions of law.

Recorded copies of copyrighted programs owned by a staff member or another person or a copy of a rental program are considered illegally made and may not be used for instruction purposes unless its use meets the fair-use test.

Rental videocassettes, laser discs and other optical media with the "home use only" warning label may not be used in a classroom, school assembly, or club unless specifically covered in the rental agreement.

Multimedia use of copyrighted material falls under the guidelines of the medium being used (e.g. computer, video, audio).

Distance learning is subject to copyright guidelines if copyrighted material is copied or recorded during a transmitted lesson.

Closed-circuit distribution of a copyrighted work to classrooms in a school or campus is legal, as long as the transmission is used for instructional activity and not entertainment.

Off-air taping of broadcast programs is permitted to educational institutions for programs broadcast to the general public. Pay cable TV services and satellite broadcasts available at an extra charge are not allowed without permission from the copyright owner.

Computer Software

Copies of software including those downloaded via modem, other than "public domain" software, cannot be made without the permission of the vendor or copyright owner.

<p>17 U.S.C. Sec. 101 et seq</p>	<p>Illegal copies of copyrighted programs may not be made or used on school equipment.</p> <p>A computer program may be legally copied only for the following reasons:</p> <ol style="list-style-type: none">1. It is created as an essential step in the use of the computer program, such as automatic copying into memory when a program is loaded.2. It is created as a backup or archival copy only. All backup and archival copies must be destroyed in the event the original program is erased or removed from inventory. <p>Backup or archival copies may not be used simultaneously with the original program.</p> <p>Copying a copyrighted program from a computer hard drive to a floppy disc, for use as an additional copy, is illegal.</p> <p>Networking computer software is illegal if the legal multiple user or site licenses have not been acquired from the vendor or copyright owner. Networking is the use of a single program in a single computer that is connected to other computers, permitting the program to be used simultaneously in more than one computer.</p> <p>Reproduction of original computer software manuals is illegal, and copying must abide by the fair use guidelines.</p> <p>The district will provide expenditures for software as a budgetary item. Priority will be given to software that supports and/or is critical to curriculum or operating needs. All other software will be purchased if reasonable need is established and/or financial resources allow such purchase.</p> <p>Renting or leasing original copies of software by individuals without the express permission of the copyright owner is illegal.</p>
